

**Don't compromise on flavour with the NEW Sacla' vegan sauces**

Feeding a family member avoiding gluten? Invited a vegan friend over for lunch? Or just in need of meat-free Monday inspiration? No problem.

Sacla', the Pesto Pioneers, are introducing two new vegan sauces to complement their range of vegan Pesto, and bring family and friends together over great tasting Italian food.

For lasagne lovers, Sacla' White Sauce cleverly replaces flour and milk with soya for a perfect besciamella sauce. It works wonders as part of a comforting bowl of Mac'n'Cheese too.

And for the ragu, Sacla' Vegan Bolognese Sauce uses the magic of pea protein to recreate a hearty meaty texture, with no need to add anything else. It's perfect with spaghetti too!

With delicious, authentic recipes, everyone will enjoy these sauces, be they vegan or not.

Sacla' vegan, gluten and wheat free sauces are available from 19th May in the Free-From aisle in Sainsbury's, RRP: £2.50.
